

## RGH18 Full Elasticated Harness

**Accredited To:EN361**

**Web Material: 45mm water repellent elasticated polyester /nylon**

**Fittings:High tensile steel alloy**

**Weight:1.2kgs**

**Features:Fully elasticated single point harness allowing for greater comfort and ease of donning**

With the introduction of elasticated webbing on the whole harness, the RGH18 harness provides greater comfort and ease of donning.

This harness is an entry level harness but having the advantage of elasticated webbing which allows for extra freedom of movement.

In addition to the elasticated feature, the harness is fully adjustable and fitted with rip stitch indicators.
